

## **Gardens Report – July 24**

General maintenance and tidy of Ocean Drive, Langbury has continued, although our gardener, David, is not able to work at full pace for the time being. A procedure scheduled for 1 July has now been deferred to 26 July.

I spent a couple of hours in June at Highdown removing twigs and dead/overgrown weeds. The plants in the barrel seem to be ok.

Unfortunately, a complaint was received from Roger Stevens on behalf of several residents regarding the overgrown/neglected state of the island site at The Grove.

I spoke with David, who had it in diary and therefore did attend a few days later – the residents are now satisfied that the position has been rectified.

### Langbury Lane –

An email response was received from WSCC on 12 June attaching a copy of a Licence granted 6 Dec 1993 allowing us 'To plant in the Highway'. Should we wish to undertake any action or work outside of that Licence, we may have to apply for another agreement.
